**DMC24**

Destination Management Software for  
**Inbound Tour Operator**

**DMC24**

## About **ETOS DMC24**

*A solution designed for every destination management specialist in the world.*

ETOS DMC24 is an inbound tour operator software designed for destinations with their localized requirements. Helps save huge operational costs, brings transparency to your team, and connects your customers with more confidence.

ETOS DMC24 is available in both subscription and implemented models that can allow destination management companies to take full advantage of the software as per their capacity spend.

### *Designed for all size operations*

**eazyDMC24**

*For small and growing*

**bizDMC24**

*For mid-sized and ambitious*

**proDMC24**

*For large with new strategies*

**enterpriseDMC24**

*For corporates with innovations*

**bespokeDMC24**

*Tailor solution that suits your requirements*

## ETOS DMC24 Features

ETOS DMC24 is built on a solid foundation of 9 core modules. The software modules are developed with detailed process flows and analytics that suit destination management companies to perform complete end-to-end business operations.

Mid-office modules further integrate with online B2C and B2B booking travel platforms, thus giving a complete travel technology solution to the tourism industry.
